I, Renae Miller, (breeder) guarantee that your puppy is healthy and sound at the time of purchase. All puppies are assessed by a licensed veterinarian, are given the appropriate vaccinations, wormed regularly for roundworms and hookworms, and are thoroughly cared for while they are in my charge. Listed are the dates of last vaccines and worming as proof that all the puppies are protected to the best of my ability.

I require all puppy families to see a licensed veterinarian within 48 hours as a new puppy evaluation. If in that time, the puppy is found to have a life threatening genitic disorder or communicable disease (this does not include internal/external parasite i.e. worms or fleas) the puppy is to be returned to me immediately with a full diagnosis report from a veterinarian for either a full refund of purchase price _____ or replacement of puppy. If the puppy is not seen within 48 hours by a vet this guarantee is void.

My goal is to breed and raise quality dogs for forever companions. I am honest and accurate regarding all of my puppies. It is expected that all new puppy owners responsibly care for and give the same love to their puppies that I do.

All sales are final. By signing below the Buyer is stating they have read and are in agreement with the puppy guarantee listed above.
